

Hexie Happy Coaster

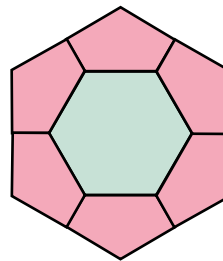

Add a bit of fabric flair to your cuppa with this cute coaster. For best results, fussy cut your favorite designer prints.

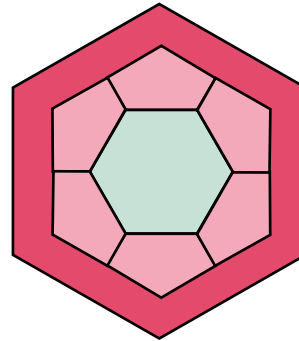

Cut fabric approximately 3/8" larger than paper templates on all sides. Follow instructions on template for required number of pieces. Prepare EPP pieces.

If you need a quick lesson in EPP, see Diane's YouTube video library for instructions:

Stitch the six Hexie Thirds to the outside edges of your fussy cut center Hexie.

Using the applique method of your choice, secure the pieced section to the right side of one of the large Hexies. Be sure to center before stitching.

Following manufacturer's instructions apply fusible fleece to wrong sides of both large Hexies.

Right sides together, sew a narrow 1/8" seam allowance around the Hexies. Leave a gap on one side of approximately two inches for turning.

Turn inside out and press. Slip stitch the opening closed.

Optional: Edgestitch around edges.
